William Mills, Librarian and Keeper of Collections, Scott Polar Research Institute, the University of Cambridge, was a great supporter of polar libraries and research. He was always generous with his time. Many of us benefited from his advice and support. William was also an energetic booster of the Polar Libraries Colloquy, serving for many years as Secretary-Treasurer. William was a wonderful colleague. Many of us were lucky enough to call him Friend.

William passed away on May 8, 2004. He will be sorely missed.
These proceedings are dedicated to William.
